Thanks Walker - you are the best connector ever! We were fortunate enough to be introduced to Wendy by Camilla Warren in R4 a few months ago, but this is a perfect opportunity to let Wendy know about our intent to submit a proposal for the next LTA rally in Portland.

And hi Wendy! Thank you again for talking with Bill and I a few months ago about the topic of contaminated property, land trusts and conservation easements. Our session at the 2019 Brownfield Conference was a big success and we will be submitting a proposal for a session at the next LTA rally. I live in Portland and so am doubly excited.

Thanks everyone for your incredible support as we promote the partnership potential between land trusts and contaminated property redevelopment projects!!

With warm regards,

Kat West

Subject: connecting Wendy, Kat, and Bill re: conservation easements on contaminated properties

Hello Wendy, Bill, and Kat,

This message is to (re?)introduce the three of you. Wendy Jackson is Executive Vice President of the Land Trust Alliance; prior to her role she was the long-time Executive Director of Freshwater Land Trust in Birmingham, AL. Kat West is a former USEPA attorney, now with Skeo Solutions. Bill Denman is Chief, Cleanups and Brownfields Branch for USEPA in Region 4. I had the pleasure of spending time with Wendy in New Haven last week during a Yale Forestry School land conservation course. Based on our conversations about conservation on contaminated properties, Wendy may be interested in your upcoming webinar (info below and attached) and Bill and Kat may be interested in hearing more about Wendy's involvements in the topic.

I'll let you three take it from here. Have fun!

All best,

Walker

Subject: EPA Superfund Redevelopment Webinar - The Brilliant & Profitable Role of Conservation Easements in Superfund Site Redevelopment

Good morning,

EPA's Superfund Redevelopment will be hosting a webinar entitled, The Brilliant & Profitable Role of Conservation Easements in Superfund Site Redevelopment, on Tuesday, January 28th, 2020; 1:00-3:00 PM EST.

You are receiving this email because you participated in one of Superfund Redevelopment's reuse planning Regional Seeds with Skeo Solutions or because you have requested to receive webinar announcements, and Superfund Redevelopment wanted to invite you to participate in this free webinar. Attached please find a flyer with more information about the webinar, including how to register.

Lucrative projects, public benefit and happy communities - land conservation easements can play a brilliant and profitable role in the redevelopment of Superfund sites and brownfield properties. Part of Superfund Redevelopment's roundtable webinar series, this training will focus on opportunities, benefits, strategies, liability protections and risk management for partnerships between developers, local and state governments, and land trusts. This interactive session will include robust Q&A as well as an opportunity for participants to share their perspectives on how to encourage more and faster Superfund site redevelopment across the country. Presenters will answer questions about available resources and support, share best practices and update participants on the latest tools and guidance.

This webinar is free of charge and open to the public. Please feel free to share the flyer with others that may be interested in attending!

If I can provide any further information, please do not hesitate to be in touch.

Thanks,

Josie Torres
